

GRADUATE STUDENT FELLOWSHIP AND GRANT LIST

Fellowships	Funding Agency	Description
F31/F31 Diversity	NIH	The purpose of this Kirschstein-NRSA program is to enable promising predoctoral students with potential to develop into productive, independent research scientists, and to obtain mentored research training while conducting dissertation research. The F31 is also used to enhance workforce diversity through a separate program.
R36 - Dissertation Awards	NIH/NIMH	The purpose of this award is to increase the diversity of the mental health research workforce by providing dissertation awards in all areas of research within the strategic priorities of the NIMH to individuals from diverse backgrounds underrepresented in mental health research to support the completion of the doctoral research project.
Predoctoral Mental Health and Substance Abuse Services (MHSAS)	APA MFP	Funded by a grant from the Substance Abuse and Mental Health Services Administration, the MFP offers Doctoral (MHSAS-Doc) and Postdoctoral (MHSAS-Postdoc) Fellowships in Mental Health and Substance Abuse Services. These fellowships aim to increase the number of psychologists who can provide effective mental health services to underserved communities and empower aspiring practitioners to make a lasting impact in behavioral health services and prevention.
Interdisciplinary Fellowship Program (IFP)	APA MFP	Funded by a grant from the Substance Abuse and Mental Health Services Administration, IFP aims to reduce health disparities among underserved communities in the United States by supporting graduate students committed to improving the quality of mental health care for these communities.
Predoctoral Fellowship Program for Autistic Scientists	Autism Speaks	Launched to support and elevate autistic voices in research, this program provides \$40,000 per year for two years to qualified predoctoral students pursuing careers in autism research. Funding includes a \$28,000 stipend and a \$12,000 allowance for research-related expenses.
Predoctoral Fellowship	Autism Speaks / AHA	This joint initiative supports research at the intersection of autism, cardiovascular health and brain health, with a focus on improving health equity and real-world outcomes for autistic people. Projects are expected to address critical knowledge gaps in cardiovascular health and autism , while incorporating implementation science approaches to improve adoption of interventions in clinical and community settings.
Elizabeth Munsterberg Koppitz Child Psychology Graduate Student Fellowship	APF	The Elizabeth Munsterberg Koppitz Fellowship program supports graduate research projects and scholarships in child psychology. \$20,800 fellowships for graduate students in child psychology.
American Doctoral Fellowship	AAUW	The American Doctoral Fellowship offsets scholars' expenses during one year of their doctoral program and deepens AAUW's impact by accelerating diversity, equity, and inclusion in academia. The American Doctoral Fellowship is open to women in all fields of study, though those engaged in science, technology, engineering, and math fields, or those researching gender issues, are especially encouraged to apply.
Paul & Daisy Soros Fellowships for New Americans	PDSOROS	The Fellowship supports one to two years of graduate study in any field and in any advanced degree-granting program in the United States. The Fellowship involves taking part in two Fall Conferences in New York City (all expenses paid) and meeting with the Fellowship director.
AHA Predoctoral Fellowship	AHA	American Heart Association offers funding to support one to two years of mentored training to students in pre-doctoral and clinical health degree programs who intend to have careers as scientists, physician-scientists or other clinician-scientists focused on improving global cardiovascular or cerebrovascular health.
NAEd/SPENCER DISSERTATION FELLOWSHIP PROGRAM	NAEd	The NAEd/Spencer Dissertation Fellowship encourages a new generation of scholars from a wide range of disciplines and professional fields to undertake research relevant to the improvement of education. This fellowship supports candidates whose dissertation projects bring innovative and insightful approaches to the history, theory, analysis, or application of formal and informal education.

GRADUATE STUDENT FELLOWSHIP AND GRANT LIST

Research Grants	Funding Agency	Description
Various Awards	APF	Psychology cannot thrive without nourishing our most intelligent and inquiring minds to pursue the discipline. To this end, the foundation supports a number of programs aimed at helping graduate students further their education in psychology.
Various Awards	APAGS	American Psychological Association of Graduate Students (APAGS) also has a handful of awards that support graduate student research.
Health Policy Research Scholars	RWJF	This is a national leadership development program for first-or- second-year doctoral students in any academic discipline who want to apply their research to help build healthier and more equitable communities.
Student Grant Competition	APS	In an effort to encourage student research in psychological science, the APS Student Grant Competition provides small “seed grant” funding to support research in its initial development stages, e.g., the purchase of research materials or other expenses incurred prior to data collection. Up to eight awards (\$500 each) will be given to APS student affiliates (graduates and undergrads). Research proposals in all areas of psychological science are welcome.
APA Dissertation Award	APA	The purpose of the APA Science Directorate's Dissertation Research Award program is to assist science-oriented doctoral students of psychology with research costs.
Graduate Student Research Award (GSRA)	ND Franco	GSRA awards assist graduate students with expenses related to research or creative projects that their departments are unable to meet. Qualifying expenses include those associated with conducting research in the applicant’s field of study and/or doctoral dissertation.
Dissertation Fellows Program	ND Franco	The Franco Institute invites applications for the 2026-27 Dissertation Fellows Program. Through this program, Franco aims to help determined graduate students make significant progress on their dissertations. A limited number of fellowships will be awarded on a competitive basis.

Travel Awards	Funding Agency	Description
Graduate School Professional Development Awards (GSPDA)	ND Grad School	The Graduate School Professional Development Awards (GSPDA) support academic and research training of graduate students. Awards are funded by the Notebaert Professional Development Fund, the Joseph F. Downes Memorial Fund, and the Zahm Research Travel Fund. Funding is available for expenses related to conference presentations, participation in workshops or seminars, research at other institutions, and other training activities in support of scholarly and professional development. Students in the College of Arts and Letters seeking dissertation research travel support or funding for artistic projects (MFA students) should apply for an Franco Institute Graduate Student Research Award .
Conference Presentation Grant	ND Grad Student Gov	The purpose of the Conference Presentation Grant (CPG) Program is to partially reimburse (average award \$250-\$260) the expenses incurred by graduate students during travel to conferences and meetings to present original work conducted in the student’s major field of study. The CPG is not intended to fund those presenting original research at an event other than a conference of scholars that is open to the public. Funding is only available for the duration of the Conference. Additional sources of funding may be offered by the Graduate School or other outside sources to fully fund expenses. The Graduate School will not provide funding unless students have proof that they at least applied to other sources , typically the CPG fulfills that requirement.
